

BLUE STAR

Fan Coil Units

Ensures high quality air, every moment.

The Leaders in Cooling

Blue Star is India's largest central air conditioning and commercial refrigeration company, with over seven decades of experience in providing expert cooling solutions. It has offices across India, UAE, Malaysia, Qatar & Oman, 5 modern manufacturing facilities, around 2500 employees and a turnover of over (USD) \$530 Million. Alliances and partnerships with leaders in global technology have further enhanced Blue Star's capability in providing advanced cooling solutions for diverse needs.

Blue Star offers a range of air conditioning products that encompasses Screw Chillers, Scroll Chillers, Air Handling Units, Fan Coil Units, Packaged Air conditioners, Ducted Splits and VRF systems, apart from room air conditioners such as Split, Window, Verticool and Cassette Air conditioners. Refrigeration products include Water Coolers, Deep Freezers and Water Cooling solutions specifically designed to cater to the unique requirements of India, Middle East, Africa, SAARC, ASEAN and Pacific Islands markets. The Company also offers specialised air conditioning equipment for telecom, precision control and process applications.

A wide range of models is available in each product category to ensure that the air conditioning system design is implemented without any compromise. All the products are energy efficient and come with a host of distinctive features. Every Blue Star product is a result of robust R&D, a strong understanding of design and superior manufacturing processes. These core attributes have made Blue Star the preferred cooling solution provider.

Global presence

Blue Star's international business consists of AC&R product exports to the Middle East, Africa, SAARC, ASEAN and Pacific Islands regions, with steady progress also being made in developing the other international markets. In addition, the Company also participates in international projects managed by the Company's joint ventures in Qatar, Oman and Malaysia.

New opportunities are being identified for AC&R products, MEP projects, after-sales service as well as system integration and agency businesses in global markets.

Cutting-edge R&D

Blue Star's innovations are born out of the high-end R&D establishment that has been painstakingly put together over decades with the brightest brains and the latest equipment in place.

Recognised by the Department of Science and Industrial Research (DSIR) - Ministry of Science and Technology, Government of India, Blue Star's R&D has enabled the Company to file more than 25 patents and win many prestigious innovation awards.

World-class testing facilities

Blue Star's infrastructure for conducting various performance tests on new products is one of the largest in India, ensuring that every product and technology is tested vigorously before being productionised. Blue Star has 6 Psychrometric, 2 Condensing and 2 Environmental test labs.

Blue Star's R&D labs at Thane & Dadra have been certified by Intertek, Sweden to carry out safety tests for HVAC products, as per International Electrotechnical Commission Standards. Intertek is a global leader in safety testing and certification for regulatory approval.

Also, the National Accreditation Board for Testing and Calibration Laboratories (NABL) has conferred a Certificate of Accreditation to Blue Star Laboratories located at Thane and Wada, India in accordance with the Standard ISO 17025: 2005.

NABL is a signatory member of APLAC and International Laboratory Accreditation Cooperation (ILAC).

Products designed are also subject to various reliability tests before they are cleared for manufacturing. These include endurance, vibration and shock tests along with life cycle and aging tests to rigorously test design reliability.

All Blue Star products are designed to perform under tropical conditions such as high ambients, high humidity, extreme voltage conditions and fluctuations.

Advanced Psychrometric Test Lab

Blue Star factories have a modern Psychrometric Test Lab that can simulate and test products under various conditions. All machines manufactured at our factories are rigorously tested for various parameters before dispatch. Customers too can witness actual performance tests conducted on the products before the dispatch of their machines, making Blue Star one of the few companies in the air conditioning industry offering this facility.

World-class manufacturing

Blue Star's manufacturing strength is spread across five state-of-the-art manufacturing facilities. Blue Star's commercial and residential AC units are manufactured at the modern factories at Wada, Dadra and Himachal Pradesh. Set up to international standards, the products manufactured at this ISO 9001-2008 certified factory are exported to various countries across the globe.

The factories are highly productive, automated and flexible. They are also efficient in manufacturing heat exchange coils and advanced chillers. These factories have modern sheet metal fabrication units with Amada punching and bending machines.

Dadra Factory

Panel Punching Machine

Ensuring an excellent finish

Blue Star's production facilities use raw materials that are of the highest quality, including corrosion resistant, galvanised steel for enhanced life and rust protection. The equipment used to process the steel include CNC machines such as the Amada punch press, hydraulic press, specialised microprocessor-based protection and resistance welders. All these machines ensure superior quality in cabinet fabrication to tight tolerances.

All products are powder coated by specialised process equipment from Nordson of the USA on fully conveyorised lines. They are fitted with electro-mechanical oscillators that ensure an even powder coating. A 'smart spray' mechanism senses movement of the conveyor and geometry of the component to adjust the powder flow.

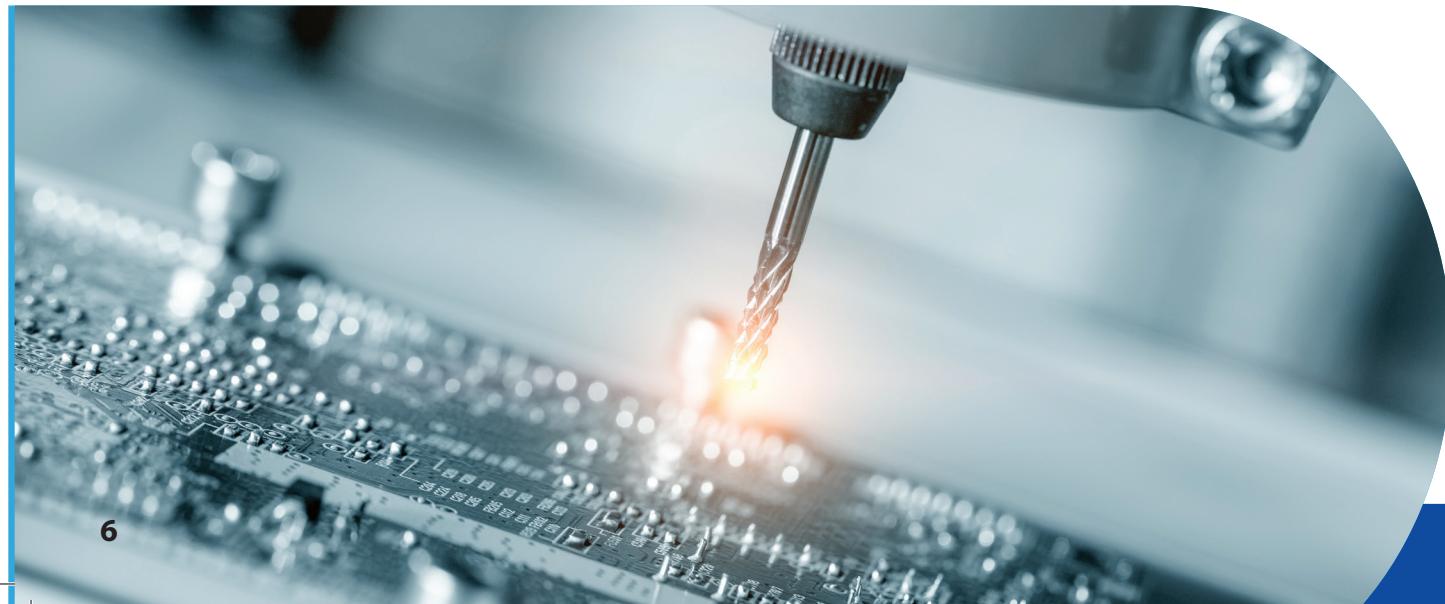

Blue Star is equipped with a high-tech coil manufacturing setup using imported Burr Oak machines that can manufacture high-efficiency plain coils as well as enhanced split fins for a superior heat transfer.

The copper tubes are then processed by a bank of PLC-controlled Burr Oak machines that ensure perfect bonding between the copper tubes and fins for a superior performance. The coils are then tested for fine leaks with ultra-sensitive electronic leak detectors to enhance reliability.

The entire FCU range is manufactured with robust manufacturing practices and quality processes laid down by Blue Star. And is subject to QC testing at the factory for all critical parameters such as CFM and static pressure, casing leak, current, voltage and vibration.

Paint Shop

Certified for Excellence

Blue Star's production processes and QC have resulted in international recognition of the quality and reliability of Blue Star products and their performance.

ISO 9001-2008 Quality Management Systems Certification

Mechanical and Performance Characteristics

BS/EN1886:2007 for strength of casing, tightness, thermal resistance

Sound Attenuators certified in SRL, UK for the static insertion loss as per BS 4718-1971

Test rig in accordance to AMCA 210-07 & AMCA 300-14 to test the product performance

Blue Star FCUs

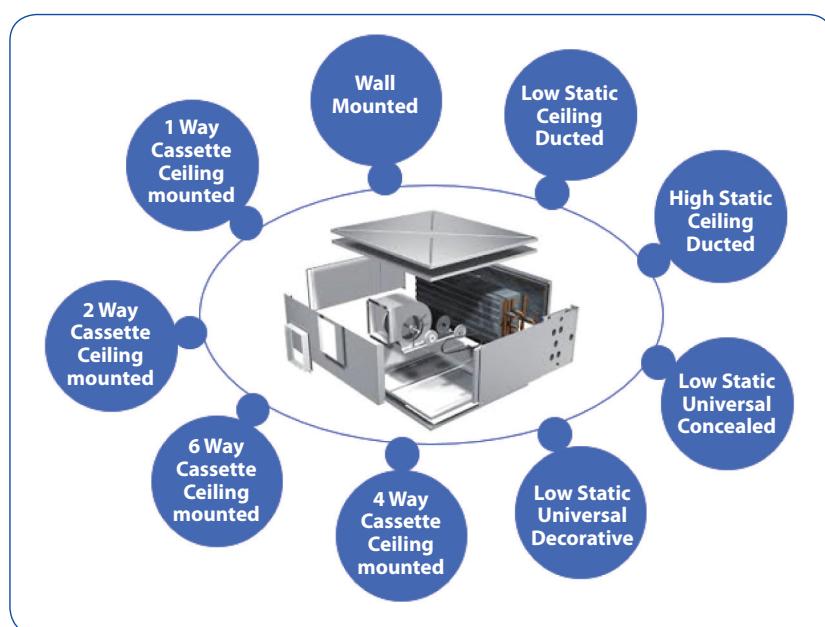

Fan Coil Unit is a simple device consisting of cooling or heating coil, filter and fan. It is part of central air conditioning HVAC systems with application for commercial and industrial buildings.

A fan coil unit is a diverse device sometimes using ductwork and is used to control the temperature in the space where it is installed or serve multiple spaces. It is controlled either by a manual on/off switch or by thermostat, this in turn controls the throughput of water to the heat exchanger using a control valve and/or the fan speed.

The Noise output from FCUs like any other form of air conditioning is principally down to design of the unit and the building materials around it, a correctly selected FCU can offer low noise levels.

Blue Star offers a comprehensive range of FCUs that spans over a large product portfolio covering a capacity range extending from 200 to 3000 CFM.

The range includes cooling-only, heating-only and cooling-cum-heating models, thereby addressing all demands.

World-class Features

Blue Star FCUs are designed to be world-class. That's why you will find that these units are packed with features that you would normally find only in premium units.

Wide range

The Blue Star FCU range is arguably the widest in the market and covers every possible need that could arise in the field.

Low height

Since FCUs generally reside between the false ceiling and the actual ceiling, height is always an issue. That is why Blue Star FCUs are designed to be low-height to suit all sites.

Easy service

Blue Star FCUs are designed for ease of service. For example, the fan deck is easily detached for maintenance, and the filter and coil are easy to access for cleaning.

Improved air quality

The high quality filter and the stainless steel drain pan provided, drain away the condensate to ensure that the cooled air throw is of high quality.

Rugged design

The galvanised steel body designed without the need for any welded joints, the permanently lubricated motor bearings and the in-built thermal overload protection device make the Blue Star FCU extremely rugged and durable.

Flexible installation

The provision of piping connection on both sides of the Blue Star FCU allows piping to be on either side, thus allowing flexibility in site design.

Blue Star's Fan Coil Unit Product Range

BSL fan coil unit is designed for external static pressure (ESP) upto 150 Pa. Owing to its low noise, this product is suitable for hotels, office buildings and other public buildings.

The Blue Star FCU range is comprehensive and suits every application requirement.

The Range Includes:

Concealed Ducted (FWLCD) FCUs

- Suitable for chilled water cooling coil
- Blow through arrangement
- Air flow: 200 to 2000 CFM
- ESP: Up to 75Pa
- 2-pipe: 3 or 4-row
- 4-pipe: 3+1-row
- Supplied with plenum box, 8 mm nylon filter and terminal box

Options:

Powder coated casing

SS drain pan,
auxiliary drainpan
for valve package

DC motor

1"
aluminium filter

Control valve
(2-way & 3-way)

Thermostat
(Manual/LCD/Remote)

Electric heater

Water Cooled High Static Ceiling Ducted (FWHCD) FCUs

- Higher version of ceiling concealed units
- Draw through arrangement
- Air flow: 800 to 3000 CFM
- ESP: 65 Pa to 150 Pa
- 2-pipe: (4-row/6-row)
- 4-pipe: (3+1-row/4+2-row)
- Supplied with 8 mm nylon filter and terminal box

Options:

Auxiliary drain pan for valve package

Control valve (2-way & 3-way)

Thermostat (Manual/LCD/Remote)

Electric heater

Water Cooled Low Static Universal Concealed (FWLUC) FCUs

- Air flow: 200 to 1400 CFM
- ESP: Up to 65 Pa
- 2-pipe: (3-row/4-row)
- 4-pipe: (3+1-row)
- Supplied with plenum box, 5mm nylon filter and terminal box

Options:

Powder coated casing

SS drain pan, auxiliary drainpan for valve package

DC motor

Control valve (2-way & 3-way)

Thermostat (Manual/LCD/Remote)

Electric heater

Water Cooled Low Static Floor Vertical Decorative (FWLUD) FCUs

- Air flow: 200 to 1400 CFM • ESP: 12Pa • 2-pipe: (3-row/4-row) • 4-pipe: (3+1-row)
- Supplied with cabinet, 5mm nylon filter and terminal box

Options:

DC motor

ABS
Plastic feet

Auxiliary drainpan
for valve package

Control valve
(2-way & 3-way)

Thermostat
(Manual/LCD/Remote)

Electric heater

Water Cooled Low Static 1-Way Ceiling Cassette (FWL1CM) FCUs

- Two types of ABS panels as options
- Air flow: 200 to 500 CFM
- ESP: Up to 12Pa
- 2-pipe: 3-row
- 4-pipe: 3+1-row
- Supplied with remote controller, 5mm nylon filter and terminal box

Water Cooled Low Static 2-Way Ceiling Cassette (FWL2CM) FCUs

- Air flow: 200 to 1400 CFM • ESP: Up to 12Pa • 2-pipe: 2-row coil • 4-pipe: 2+1 row coil
- Supplied with remote controller, 5mm nylon filter and terminal box

Water Cooled Low Static 4-Way Ceiling Cassette (FWL4CM) FCUs

- 300 to 1700 CFM • ESP: Up to 12Pa • 2-pipe: 2-row coil • 4-pipe: 2+1 row coil
- Supplied with remote controller, 5mm nylon filter and terminal box

Water Cooled Low Static 6-Way Ceiling Cassette (FWL6CM) FCUs

- Air flow: 500 to 1000 CFM • ESP: Up to 12Pa • 2-pipe: 2-row coil • 4-pipe: 2-row coil
- Supplied with remote controller, 5mm nylon filter and terminal box

Options: for all Cassette units

Auxiliary drain pan
for valve package

DC motor

Control valve
(2-way & 3-way)

Thermostat

Electric heater

Water Cooled Low Static High Wall Mounted (FWLWM) FCUs

- Air flow: 200 to 800 CFM • ESP: Up to 12Pa • ABS plastic casing • 2-row coil (9.52mm OD copper tube)
- Supplied with remote controller, 5mm nylon filter and terminal box

Options:

Supplied factory
fitted inside casing

EC motor

Control valve
(2-way & 3-way)

Optional Extras

Blue Star FCUs come with various value-added optional accessories that make the range very versatile:

Complete Control Valve Package with ON/OFF type spring-loaded actuator and thermostat

Mechanical Thermostat with both Cool and Heat models, fan speed selection, room temperature setting and motorised valve control

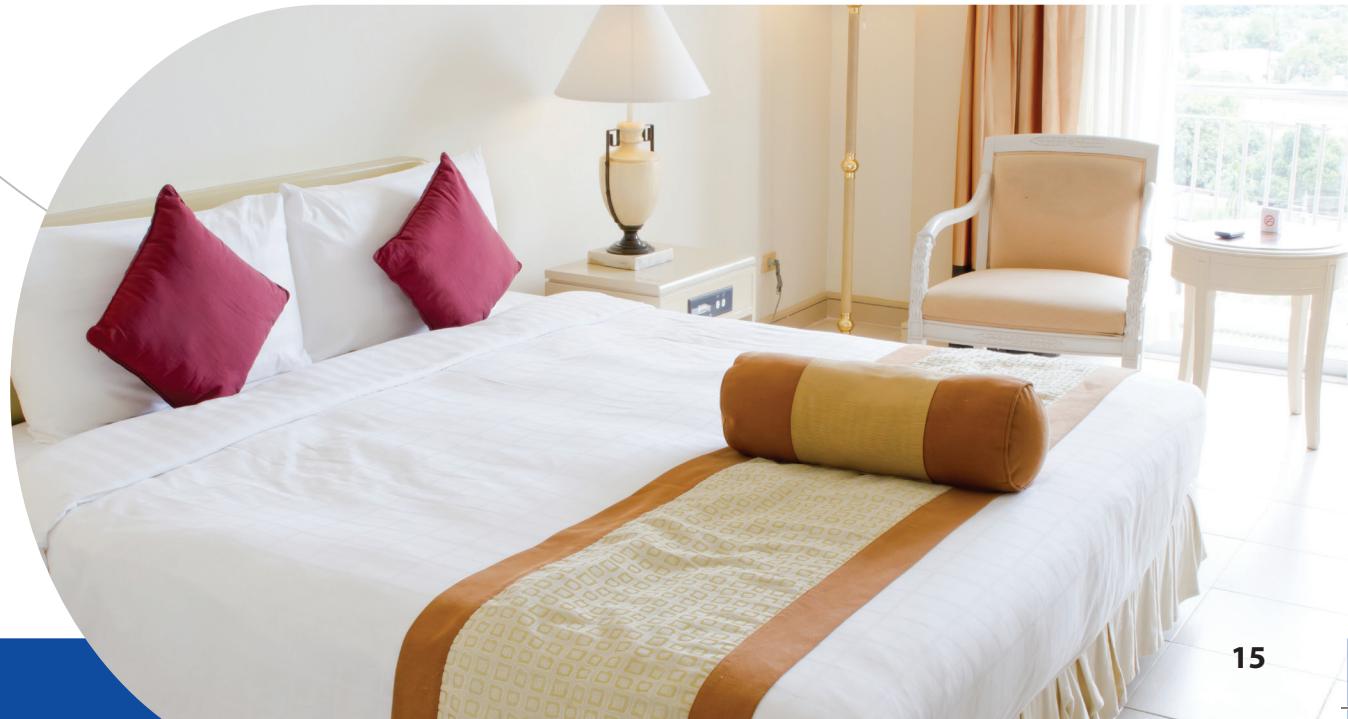

Electronic Thermostat with LCD display, selection of Cool, Heat, or Vent Modes, allowing Auto Random Restart and Weekly Timer Setting

Motorised Valve in brass conforming to European pressure equipment directive PED 97/23/EC, with actuators that conform to protection requirement of council directive 89/336/EEC, offering low power consumption and low noise operation

PTC Electric Heaters with over-heat protect function

Tested for Performance

Dimensional verification

Physical dimensions are verified against GA drawings so that the finished unit matches space requirements at the site.

Voltage, current and wattage

While the FCU runs, voltage, current and wattage readings are noted using a digital meter.

Fan/Motor RPM

The FCU is run for half an hour after which a contactless tachometer is used to measure fan and motor RPM.

Fan bearing temperature

Fan bearing temperature is noted using an infrared temperature gun.

Coil leaks

Compressed air is charged into the brazed water-cooled coil up to a pressure of 325psig (450psig for Dx type coils), and the coil is then dipped into a water tank for a while to check for leaks.

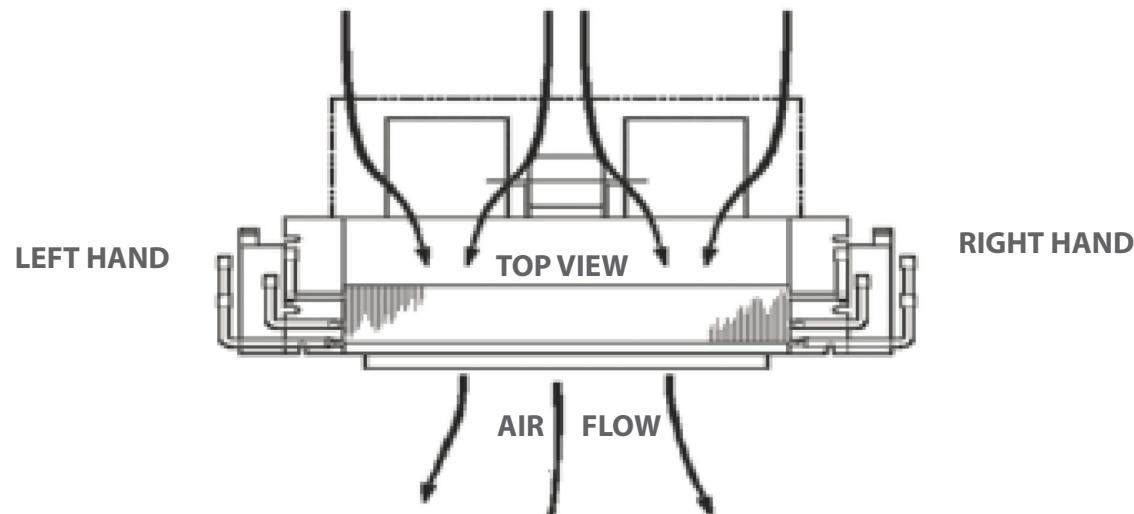

The above tests ensure that the units that leave Blue Star's factory are ready for a rugged performance in the field. Customers can even witness their AHUs undergoing the tests before being shipped to the site.

General Arrangement

To ensure flexibility of design, all Blue Star FCUs allow piping connection from either the left or the right side, thereby allowing easy fit whichever orientation the FCU is placed with respect to the piping.

Determination of Right hand/Left hand pipe connection.

Technical Specification

ARI- 440 Standard Rating

The following rating conditions are used:

Cooling: Entering air temperature: +80°FDB; +67°FWB

Heating: Entering air temperature: +68°FDB

Water inlet/outlet: +45/55°F

Water inlet temperature: +140°F

ESP: 0.2 in H2O

Water flow rate as for the cooling conditions

ESP: 0.2 in H2O

ARI- 440 Standard Rating

The following rating conditions are used:

Cooling: Entering air temperature: +80°F DB; +67°F WB

Water inlet/outlet: +45/55°F

ESP: 0.44 in H₂O

Heating: Entering air temperature: +68°F DB

Water inlet temperature: +140°F

Water flow rate as for the cooling conditions

ESP: 0.44 in H₂O

Performance Data - FWLUC/D

The performance data lists regular EU standard, ARI 440 standard and District Cooling

Standard rating	
The following rating conditions are used:	
Cooling: Entering air temperature: +27°C DB; +19.5°C WB	Heating: Entering air temperature: +20°C DB
Water inlet/outlet: +7/12°C	Water inlet temperature: +50°C
ESP: 50Pa	Water flow rate as for the cooling conditions
	ESP: 50Pa

Performance DATA-FWL4CM

The performance data lists regular EU standard, ARI 440 standard and District Cooling

Standard rating	
The following rating conditions are used:	
Cooling: Entering air temperature: +27°CDB; +19.5°C WB	Heating: Entering air temperature: +20°C DB
Water inlet/outlet: +7/12°C	Water inlet temperature: +50°C
	Water flow rate as for the cooling conditions

GENERAL DATA-FWL6CM

(Fan Coil Unit Water Cooled Low Static 6-way Cassette Ceiling Mounted)

	Model No	FWL6CM-50	FWL6CM-60	FWL6CM-80	FWL6CM-100
	Nominal Air Volume (cfm)	500	600	800	1000
Coil	Copper tube	3/8"(9.52mm) OD seamless copper tube			
	Fins	Hi-efficiency wavy corrugated aluminium blue fins			
	Fins per Inch (fpi)	12	12	12	12
	Coil Length (mm)	2500	2500	2500	2500
	Coil Height (mm)	225	225	225	225
Fan	Fan type	Centrifugal backward curve, ABS wheel,direct driven			
	Quantity (No)	2	2	2	2
Motor	Voltage (V)	220-240V /1Ph/50-60Hz,110-127V /1Ph/50Hz			
	Motor Speed	3 speed			
	Quantity (No)	2	2	2	2
	Max Power Input (W)	80	110	122	160
Fan sound level @ 1 mtr	H (dBA)	43	45	49	50
	M (dBA)	40	42	46	48
	L (dBA)	38	39	43	46
Water pipe	Cooling coil	3/4"FTP	3/4"FTP	3/4"FTP	3/4"FTP
	Heating coil (4 pipes unit)	3/4"FTP	3/4"FTP	3/4"FTP	3/4"FTP
Drain pipe		3/4"MTP	3/4"MTP	3/4"MTP	3/4"MTP
Dimension	Length (mm)	1380	1380	1380	1380
	Width (mm)	820	820	820	820
	Height (mm)	370	370	370	370
Weight	Net Weight (kg)	42	42	42	42

Performance DATA-FWL6CM

Standard rating	
The following rating conditions are used:	
Cooling: Entering air temperature: +27°C DB; +19.5°C WB	Heating: Entering air temperature: +20°C DB
Water inlet/outlet: +7/12°C	Water inlet temperature: +50°C
	Water flow rate as for the cooling conditions
