Good morning ladies and gentlemen, this is Neeraj Basur. I will be providing you an overview of the results for Blue Star Limited for the quarter and year ended March 2021.

I. FINANCIAL HIGHLIGHTS

With an improvement in the general business sentiments and the early onset of summer in some parts of the country, all business segments witnessed growth as compared to Q4 levels last year. The overall business recovery for the year was satisfactory and better than expectations at the year beginning. Several cost rationalization and capital preservation measures coupled with prudent working capital management resulted in healthy generation of cash from operations. These measures enabled the Company to close FY21 with a strong Balance Sheet and a healthy liquidity position.

II. BUSINESS HIGHLIGHTS FOR FY21

Segment I: Electro-Mechanical Projects & Commercial Air Conditioning Systems

Segment I revenue grew 18.1% to Rs 779.96 cr in Q4FY21 as compared to Rs 660.39 cr in Q4FY20. Segment result was Rs 48.50 cr (6.2% of revenue) in Q4FY21 as against Rs 3.17 cr (0.5% of revenue) in Q4FY20.

Segment revenue for the year recovered 78.5% to Rs 2218.72 cr as against Rs 2826.67 cr in FY20. Segment result was Rs 106.49 cr (4.8% of revenue) in FY21 compared to Rs 120.26 cr (4.3% of revenue) in FY20. Order inflow during the year was Rs 2244.84 cr as compared to Rs 3104.67 cr in FY20.

1. Electro-Mechanical Projects business

As expected, order inflows continued to be slow from the commercial buildings sector which is yet to recover. Muted government expenditure also impacted order inflows in the infrastructure sector. Order inflows from the factories and light industrial sector improved as compared to last year, driven by the Make in India initiatives of the government.

We continued to moderate the pace of our execution, basis assessment of customer credit profile and operating cash flow visibility for the ongoing jobs which enabled an improvement in margins for the business.

We will continue to focus on the Infrastructure sector such as metro railways, electrical substations and water distribution, which are expected to offer immediate growth opportunities. Factories, data centers and warehousing sectors are also expected to throw up good opportunities in the upcoming quarters.

Carried-forward order book of the Electro-Mechanical Projects business was Rs 2149 cr as on March 31, 2021 as compared to Rs 2039 cr as on March 31, 2020, a growth of 5.4%.

Segment-wise break-up of the carry forward order book of the Electro-Mechanical Projects business is as follows:

Application Segment	Share
Office (IT/Non-IT)	29%
Metro Rail	22%
Hospitals	9%
Industrial	9%
Power Generation & Distribution	6%
Malls	4%
Others (airports, hotels, educational institutions etc.)	21%

2. Commercial Air Conditioning Systems

Our Commercial Air Conditioning business registered a growth of 19% during the quarter. While order inflows from key sectors such as IT, Offices, Marriage Halls and Auditoriums continued to be dormant, we channelized our focus on the emerging sectors such as healthcare, pharma and light industrial.

We continue to maintain our number 1 position in Ducted Air Conditioning, number 2 in VRF and number 3 in Chiller product categories.

We added new large capacity models and side-discharge system for residential use to our VRF product range and have now completely indigenized this product category.

Major orders bagged in Q4FY21 were from Birla Cement (Nagpur), Avenue Supermart (Vijaywada/Surat), ISRO (Bangalore), Flextronics (Chennai), Gujarat Biotechnology (Ahmedabad) and West Coast Pharmaceuticals (Ahmedabad).

3. International Business

Normalization of business activities enabled a growth in revenue during the quarter. We witnessed improved demand for both air conditioning and refrigeration products across SAARC and ASEAN markets with channels stocking up for the upcoming summer sales.

The upcoming EXPO 2020 at Dubai and the FIFA tournament at Qatar are expected to offer growth opportunities. The macro-economic environment in the region is expected to improve driven by the establishment of trade relations between Israel and UAE and the thawing of ties between Qatar and the GCC countries.

The projects businesses at Qatar and Malaysia continued to be impacted owing to Covid. While the subsidiary at Qatar received some notable orders towards the end of the year that will get billed during FY22, order inflow and the pace of execution in the joint venture at Malaysia continues to be slow due to macro-economic instability.

We continue to focus on the expansion of the Blue Star product range and building brand awareness and brand visibility in different markets that we are present in.

Segment II: Unitary Products

Segment II revenue which recovered 84.5% in Q2FY21 and 117.3% in Q3FY21 continued to improve its recovery trajectory and grew 31.1% to Rs 781.81 cr in Q4FY21 as compared to Rs 596.28 cr in Q4FY20. Segment result was Rs 62.06 cr (7.9% of revenue) in Q4FY21 as compared to Rs 43.75 cr (7.3% of revenue) in Q4FY20.

Revenue for the year recovered 81.2% to Rs 1868.28 cr in FY21 as against Rs 2300.61 cr in FY20. Segment result was Rs 108.82 cr (5.8% of revenue) in FY21 as compared with Rs 162.27 cr (7.1% of revenue) in FY20.

Due to unprecedented increase in the raw material costs including steel, copper and ABS plastics as well as ocean freight, the prices were increased between 5% and 8% for various SKUs with effect from January 1, 2021.

1. Cooling and Purification Products business

Stocking of inventory by channels ahead of the peak selling season, improved share of billing from the e-commerce channels and a general business sentiment improvement enabled a growth in revenue for the room air conditioner business in Q4FY21 as compared to Q4FY20. The Room Air Conditioner market grew by 27%. We grew by 33% and expect to have improved our market share to 13.25% in Q4FY21.

Other products such as Water Purifiers, Air Purifiers and Air Coolers are performing well in line with the plans and we continue to gain market share. We achieved a market share of 3% in water purifiers with a major share of billing to e-commerce players. Having reached a break-even level, Water Purifiers will be an e-commerce centric product portfolio going forward.

2. Commercial Refrigeration business

Our Commercial Refrigeration business witnessed good traction across all product categories during the quarter. Improvement in demand across all customer segments coupled with aggressive stocking by the channel enabled a growth in revenue during Q4FY21 as compared to Q4FY20. In addition to continued demand from the healthcare, pharma and food processing and food delivery segments, order inflows also improved from restaurants and the government sector.

With the launch of a new range of pharma cold rooms, medical freezers, ice lined refrigerators and vaccine transporters, we offer end to end solution for vaccine distribution. Our products have been well accepted by the government, vaccine manufacturers and private distributors. We continue to be the market leader in the healthcare and pharmaceutical sector.

We continue to witness healthy growth for our supermarket refrigeration equipment driven by the growth in the retail sector.

With the launch of our super coolers, we now also have a complete range of Visi Coolers, enabling us to gain momentum in this segment as well.

Major orders were bagged in Q4FY21 from Dr Reddy's Labs, Apollo, Aurobindo Pharma, Zydus Cadilla, Rebel Foods, Swiggy, Reliance Retail etc., to name a few.

Segment III: Professional Electronics and Industrial Systems

Segment III revenue grew by 16.6% to Rs 49.79 cr in Q4FY21 as compared to Rs 42.69 cr in Q4FY20. Segment result was Rs 7.22 cr (14.5% of revenue) in Q4FY21 as compared to Rs 7.50 cr (17.6% of revenue) in Q4FY20.

Segment revenue for the year recovered by 75.8% to Rs 176.59 cr as against Rs 232.91 cr in FY20. Segment result was Rs 33.81 cr (19.1% of revenue) in FY21 as compared to Rs 54.34 cr (23.3% of revenue) in FY20.

Revenue and profitability were higher in FY20 on account of few large value orders in the Data Security Solutions business.

Revenue of this segment continues to be driven by opportunities from the BFSI sector for the Data Security Solutions business, order inflows from the healthcare sector, and orders from the essential services of the government sector.

Major orders were bagged in Q4FY21 from FIS Payment Solutions and Services, Navodaya Education Trust, Jio Platforms Limited, IndusInd Bank Limited, ICICI Bank Limited, etc. to name a few.

With the wide portfolio of products and solutions forming part of our offerings, the prospects for this business segment are positive.

III. BUSINESS OUTLOOK

Robust business recovery witnessed in the second half of the financial year enabled us to end the year with a strong quarter. In the Electro-Mechanical projects business, we continue to prioritize our project execution based on assessment of customer credit profile and operating cash flow visibility. The government's focus on localization under the Atmanirbhar Bharat Program has brought in good opportunities for the company in the manufacturing sector.

We have strengthened our product portfolio under all categories in Room Air Conditioners and Commercial Refrigeration. Digitization and Healthcare initiatives continue to offer good prospects for the Professional Electronics and Industrial Systems segment.

However, the sustenance of this growth momentum has been challenged by the second wave of the pandemic. Restrictions similar to lockdowns of varying degrees in many parts of the country since the middle of April 2021 might impact the planned revenue growth for April and May. We are focused on maximizing the revenue in the markets which are open and at the same time moderating the inventory levels and operating costs. As on date, our factories at Himachal Pradesh, Dadra and Ahmedabad are operational and the Wada plant is operational for executing export orders and domestic pharma and healthcare contracts.

With the experience gained in the previous year, our focus continues to be on keeping our employees, dealers and business associates safe, fulfilling emergency needs of our customers, building resiliency and operating agility. As in the past, we are confident of sustaining this phase in a prudent and balanced manner and continue our growth and expansion trajectory.

With that ladies and gentlemen, I am done with the opening remarks. I would like to now pass it back to the moderator, who will open the floor to questions. I will try and answer as many questions as I can. To the extent I am unable to, we will get back to you via e-mail.

With that, we are open for questions.

Ending remarks: Thank you very much, Ladies and Gentlemen. With this, we conclude this quarter's earning call. Do feel free to revert to us in case any of your questions were not fully answered and we will be happy to provide you additional details by email or in person.
