## At ₹512 crore, MRF Q4 net rises 29%

**Our Bureau** Chennai

Tyre maker MRF on Wednesday reported a 29 per cent growth in consolidated net profit for the fourth quarter ended March 2025 at ₹512 crore.

The company's consolidated revenue grew 11 per cent and stood at ₹7,074 crore as against ₹6,349 crore during the same quarter last year. Despite a 12 per cent rise in revenue for FY25, the consolidated net profit stood at ₹1,869 crore as against ₹2,081 crore for the previous financial year. The company attributed the decline in net profit to an increase in input costs. The company said dividend for FY25 is ₹235(2,350 per cent) per share of ₹10 each, which includes two interim dividends of ₹3 each (30 per cent) per share already paid.

#### CONSOLIDATED EXPORTS

MRF's consolidated exports for FY25 was ₹2,321 crore as against ₹1,887 crore for the previous financial year, registering an increase of around 23 per cent year-on-year.

"In FY25, all the three segments of the market — replacement, institutional and export — registered strong growth," the company said in a statement. "In addition to conventional ICE vehicles, the company continues to be a significant player in electric vehicles, supplying tyres to all major original equipment manufacturers, commercial, passenger and two-/three-wheeler segments," it added.

#### INPUT COSTS SOFTEN

As per MRF, the raw material cost softened marginally in Q4 compared to the levels in the third quarter. The company effected price increases during the year, which offset the impact of the increase in input costs to an extent, it said.
