

The image features a tall, modern glass skyscraper as the central background element. In the foreground, there is a collection of Blue Star appliances: a large industrial ice-making machine with multiple storage bins, a wall-mounted air conditioner, a window air conditioner, a refrigerator, and a water dispenser. The appliances are arranged in a row, with the ice machine on the left and the water dispenser on the right. The text 'BLUE STAR LIMITED' is written in large, bold, blue capital letters, and 'CORPORATE PROFILE' is written in smaller, blue capital letters below it. The sky is blue with white clouds.

BLUE STAR LIMITED

CORPORATE PROFILE

OUR ORIGIN

Founded in 1943, by Mohan T Advani, an entrepreneur of exemplary vision and drive

Initially engaged in reconditioning of refrigerators and air conditioners

Corporate headquarters in Mumbai

Listed on the Bombay Stock Exchange in 1969

THE PRESENT

One of India's leading air conditioning and commercial refrigeration company

Network of over 30 offices across India

Total income of over ₹ 12000 crores

10000 retail outlets along with 2100 service centres catering to customers in over 900 towns

7 modern manufacturing facilities

Over 3000 employees

Comprehensive solutions for corporate, commercial, and residential customers

BUSINESS SEGMENTS

BUSINESS SEGMENTS

Electro-Mechanical Projects and Commercial Air Conditioning Systems

Unitary Products

Professional Electronics and Industrial Systems (managed by a wholly owned subsidiary, Blue Star Engineering & Electronics Limited)

ELECTRO-MECHANICAL PROJECTS AND COMMERCIAL AIR CONDITIONING SYSTEMS

ELECTRO-MECHANICAL PROJECTS

One of India's foremost end-to-end service provider of Mechanical, Electrical and Plumbing (MEP) services, executing and delivering complex infrastructure and commercial developments for industrial solutions

Superior project delivery through best-in-class project management, intelligent engineering, modern execution practices, and committed teams

Wide reach of operations across geographical locations and segments such as data centres, factories, commercial buildings, malls, hotels, hospitals, railway electrification, electrical substations, airports, and R&D centres

HVAC PROJECTS

Expert turnkey MEP cooling solutions for a variety of customers in the corporate, commercial, and industrial sectors

Expertise of over eight decades in system design, contracting, installation, and maintenance

Significant market share in segments such as industrial, infrastructure, metro, power, hospitality, education, IT/ITES, retail, and healthcare

ELECTRICAL PROJECTS

Standalone electrical contracting projects as well as integrated MEP contracting project

Focus on commercial buildings, substations, industrial sectors, airports, and metros

Services offered:

- Electrical design and engineering
- Supply and installation of entire power systems including ELV System
- Liaising, statutory approvals, commissioning, and asset management

PLUMBING & FIREFIGHTING PROJECTS

Plumbing Services:

- Sanitary fixtures and fitting
- Internal drainage system
- External drainage system
- Rainwater disposal system
- Water supply system
- Rainwater harvesting
- Plant and utilities
- Water Treatment Plants and RO systems
- Liaising and approvals

Firefighting Services:

- Fire hydrant system
- Fire sprinkler system
- Fire extinguishers
- Fire detection and alarm system
- Gas suppression system
- Public address system
- Plant and utilities
- Preaction system
- Liaisoning & Approvals

INDUSTRIAL PROJECTS

Focus on segments such as data centres, factories, and industrial sectors

Executes turnkey contracting industrial projects

Services offered:

- Industrial design and engineering
- Project management and construction
- Liaising and approvals
- Testing and commissioning
- Maintenance

MEP PROJECTS

3C Excellence Programme Engineering Excellence, Construction Excellence, and Project Associate Development programmes enabling modernization and transformation

A large network of subcontractors, business associates, and vendors

Total system integration from conceptualization to completion

Cost-effective procurement of equipment from manufacturers

COMMERCIAL AIR CONDITIONING SYSTEMS

Design, installation, and maintenance of central air conditioning systems for commercial spaces

Portfolio includes packaged and ducted systems, VRF units, scroll chillers, screw chillers, centrifugal chillers, and data centre chillers

Market leader in ducted air conditioning; among the top three in VRF and chiller categories

Driven by segments such as offices, education, industrial, showrooms, healthcare, hospitality, banquet halls, and retail

CHILLERS

Centrifugal Chiller

Brine Chiller

Water Cooled Inverter Scroll Chiller

Air Cooled Inverter Scroll Chiller

Data Centre Chiller

VRF SYSTEMS

One-way Cassette AC

Hi-wall AC

Ductable AC

Four-way Cassette AC

Top Discharge

Concealed Split AC

DUCTED AND PACKAGED SYSTEMS

Air Cooled Ducted Split Indoor Unit

Air Cooled Ducted Split Outdoor Unit

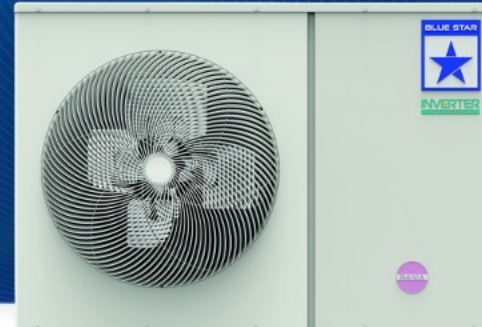

Water Cooled Mini Series Indoor Unit

Water Cooled Mini Series Outdoor Unit

Inverter Packaged Outdoor Unit

Floor Mounted Packaged Indoor Unit

INTERNATIONAL BUSINESS

Presence in over 20 countries across the Middle East, SAARC, Africa and ASEAN regions

Wholly owned subsidiaries including Blue Star North America Inc., Blue Star Europe B.V., and Blue Star International FZCO, UAE

Offers AC&R products, MEP projects, after-sales services, system integration, and contract manufacturing in global markets

Blue Star North America Inc. and Blue Star Europe B.V. driving OEM/ODM business growth across the USA and Europe

UNITARY PRODUCTS

ROOM AIR CONDITIONERS

Wide range of Room Air Conditioners

Flagship Range

Premium Range

Affordable Range

ROOM AIR CONDITIONERS

Energy efficient 3-star and 5-star models available across capacities from 0.8 TR – 4.0 TR

Contemporary features such as: AI Pro+, Smart WiFi, Defrost Clean Technology, Convertible 6-in-1 Cooling, Self-clean, Nano Blu Protect, DigiQ Octa Sensors

Multi-layer filtration systems with HEPA, PM 2.5 and Anti-microbial capabilities

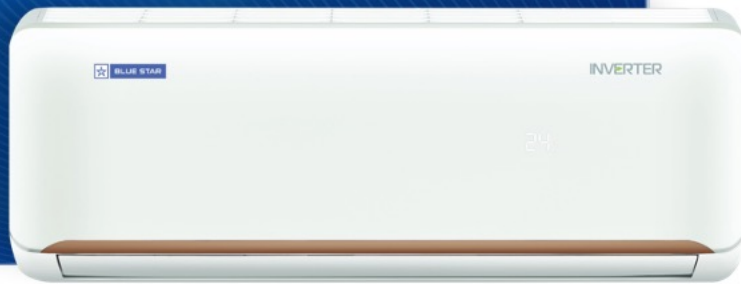

Focus on residential as well as corporate and commercial customers

All inverter ACs are smart ready, allowing for future smart upgrades

»» FLAGSHIP RANGE

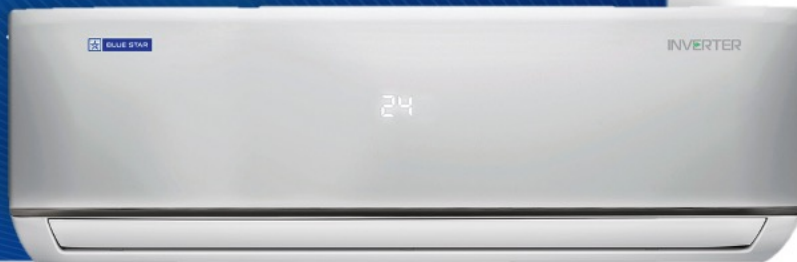

Super Energy Efficient ACs

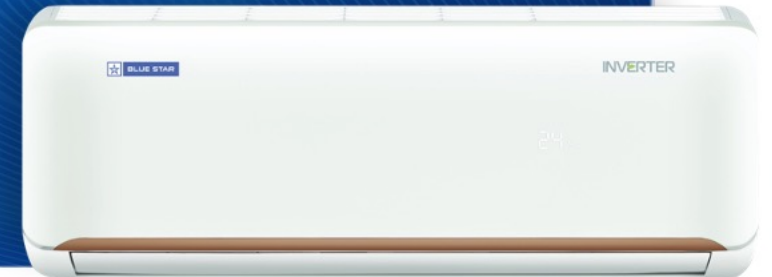

Heavy Duty ACs

Hot & Cold ACs

Anti Virus ACs

HERE ARE THE KEY FEATURES SHOWN

AIR COOLERS

The range offers best-in-class cooling efficiency and is available in various water tank capacities from 10 – 150 litres

Innovative features including, cross-drift, dual-cool technologies, and honeycomb pad with anti-microbial properties

Backed by a wide network of distributors, dealers, and service centres across the country

COMMERCIAL REFRIGERATION

Caters to segments such as: horticulture, floriculture, banana ripening, dairy, ice cream, poultry, processed foods, quick service restaurants, HoReCa, sericulture, marine, pharmaceuticals, and healthcare

Wide range of cooling and preservation solutions including modular cold rooms, pack houses, perishable cargo complexes, ripening chambers, and controlled atmosphere storages

Products manufactured at the Company's state-of-the-art manufacturing facilities in Wada and Ahmedabad

Usage of low-GWP refrigerants and eco-friendly insulation materials

PRODUCT RANGE

Chest Freezers/ Coolers

Storage Water Coolers

Modular Cold Rooms

Bottled Water Dispensers

Visi Coolers

Kitchen Refrigeration

Supermarket Refrigeration

Healthcare Refrigeration

PROFESSIONAL ELECTRONICS & INDUSTRIAL SYSTEMS

PROFESSIONAL ELECTRONICS AND INDUSTRIAL SYSTEMS

70+ years of expertise as a high-end system integrator and value-added reseller

Recognised as India's gateway for advanced technologies through global partnerships

Specialised business units in MedTech, Data Security, Industrial including NDT, Material Testing, Chambers, and Metrology

Diverse offerings: Advanced technology products, turnkey engineering, automation, inspection and calibration services

CUSTOMER SERVICE GROUP

One of India's largest HVAC&R after-sales service providers, with over 2100 service centres across over 900 towns

Comprehensive offerings: Maintenance, upgrades/retrofits, facility and energy management solutions

E-waste recycling of defective spare parts

Efficient Customer Relationship Management (CRM) system for faster, seamless service

Strong training ecosystem: 8 Centres of Excellence, 5 Skill Development Centres, and 'Training on Wheels' for nationwide technician training

MANUFACTURING FACILITIES

7 state-of-the-art facilities located at

Ahmedabad

Himachal Pradesh (2 Plants)

Dadra

Wada (2 Plants)

Sri City

MANUFACTURING FACILITIES

Expertise in manufacturing highly engineered and custom-built products

Industry 4.0 solutions enabled by digital and robotic automation

Adoption of Six Sigma and lean manufacturing practices, with strong focus on value analysis and engineering

Workplace safety and inclusivity through near-miss campaigns, safety kaizens and gender-inclusive hiring at Sri City, Wada and Ahmedabad Plants

Green-certified manufacturing facilities demonstrating sustainability commitment

Manufacturing Excellence Programme driving productivity enhancement

Recognition on national and global platforms for excellence in Kaizen, 5S, automation, and quality

RESEARCH & DEVELOPMENT

Strong innovation track record with 55 patents filed and 65 design registrations across product categories

Robust new product development process supported by lab certification programs

Expertise in manufacturing highly engineered and custom-built products

Electronics excellence with NABL-accredited labs for product development, reliability testing, and safety certification

Ashok M Advani
Innovation Centre at Bhiwandi for advanced design and development of heat pumps and VRF

Enhanced capability to create smart and digital products through Industry 4.0 technologies
