Where Cooling Solutions are shaped Manufacturing Facilities

Business Overview – Q3 FY26

Segment 1 - Electro-Mechanical Projects and Commercial Air Conditioning Systems

Electro-Mechanical Projects:

- ❑ Enquiry momentum remained strong across Buildings, Data Centers, and Factories, with healthy commercial office demand in select pockets.
- ❑ Rising opportunities in hospitals and malls, including tier-III cities, support a favorable medium-term outlook despite a few large order closures being deferred.

Commercial Air Conditioning Systems:

- ❑ Delivered strong order inflows during the quarter. Some deliveries shifted to the next quarter, resulting in Revenue deferral.

International Business:

- ❑ Despite tariff-related uncertainties, the Company's expansion into the US and Europe is progressing well.

Segment 2 - Unitary Products

Room Air Conditioner:

- ❑ Room Air Conditioners business saw a revival in growth, driven by demand from channel partners ahead of the energy-label change effective January 1, 2026.
- ❑ Production of the new, energy-compliant product range has commenced, positioning the Company well for the upcoming summer season.

Commercial Refrigeration:

- ❑ Commercial Refrigeration demand remained subdued during the quarter, with recovery expected during summer season.
- ❑ We are strengthening our growth platform by expanding our energy-efficient, IoT-enabled portfolio, positioning the business well for the upcoming summer season.

Segment 3 - Professional Equipment and Industrial Solutions

- ❑ Industrial Solutions continue to grow, driven by strong demand in the automotive and steel industries.
- ❑ Data Security Solutions continued with steady performance driven by demand from BFSI and large enterprises.
- ❑ Uncertainty around the regulatory policy framework for the Med-Tech Solutions business continues, which has led to a moderation in business momentum.
